

terra vermessungen ag is among the leading service providers for engineering surveys, mobile mapping, geomonitoring and Building Information Modelling (BIM). We have been impressing customers in Switzerland and abroad since 1993 with our unique services. We deliver bespoke solutions for large and small projects that offer cutting-edge technology at an attractive price. As a member of the MEB Group with 100 employees, we are part of a strong network of experts and solutions for the digitalisation of construction processes.

We are currently looking for someone to join our team at the Othmarsingen/Zurich office.

## DEVELOPMENT AND PROJECT ENGINEER

for the development and advancement of our mobile mapping systems for railways, roads, tunnels and bodies of water. You will develop prototypes, test programmes and concepts and implement the developed technology in the field as part of our mobile mapping projects. As part of our motivated team, you can bring your innovative drive and high level of technical expertise to the fore.

### Your main responsibilities

- ✓ Development, advancement and maintenance of geodetic mapping systems
- ✓ Combination and integration of different sensors to form new comprehensive mapping systems
- ✓ Coordination and implementation of our development projects
- ✓ Active assistance with the implementation of mobile mapping projects in the office and in the field

### Your profile

- ✓ Engineer or technician with a background in mechanical engineering/electrical engineering/mechatronics/robotics/computer science or surveys with an affinity for the complementary specialist area
- ✓ Experience designing and implementing systems with mechanical, electronic and software-side components
- ✓ Surveying experience
- ✓ Excellent German and English, written and spoken

### Your advantages

- ✓ An active role in the creation of new, innovative mapping solutions
- ✓ Cutting-edge survey technology and in-depth expertise
- ✓ Pleasant working environment as part of an experienced team
- ✓ Independent work

Have we piqued your interest or do you have questions?

Get in touch with Daniel Wiesemann if you would like to learn more about what we do.
